## DETAILED ACTION

### *Allowable Subject Matter*

**Claims 2, 3 and 5-9** are allowed.

The following is an examiner's statement of reasons for allowance: ✓

With regard to claim 2: This claim is allowable over the prior art of record because the latter, either alone or in combination, does not disclose nor render obvious an all dielectric self supporting optical cable comprising a central tensile member, a fiber in a tubular buffer arranged around the central tensile member adjacently and twisted on the center of the central tensile member, an inner sheath surrounding the buffer, an outer tensile member having a substantially cylindrical sheet surrounding the inner sheath and having a plurality of tensile wires extended in parallel each having a longitudinal axis lying substantially in the same cylinder without intentional twisting on the central tensile member, a thermosetting adhesive resin that soak the wires and are connecting the tensile wires adjacent to each other and permeating the spaces between the wires such that any broken wires effectively remain combined together and an outer sheath surrounding the outer tensile member , in combination with the rest of the claimed limitations.

With regard to claims 3 and 5-9: These claims are allowable over the prior art of record because they depend from an allowable claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
